

Tarea 1.3: Cifrado por desplazamiento

Carrillo Estrada Hector

Ejecución para mensaje contenido en input.txt

```
~/escom/crypto/affine_cypher (23.688s)
python3 encode.py

Original Text: I am encoded using the Affine Cypher Algorithm

Enter the value for a (multiplicative constant): 4
Enter the value for b (additive constant): 6

Error: Both "a" and "b" should be between 0 and 25. Also, "a"
must be coprime with 26.

Enter the value for a (multiplicative constant): 7
Enter the value for b (additive constant): 9
